Find best deals on groceries online

January 1, 2010 - 11:10:40 PM Ajaxo.com helps you comparison shop

Finding the best deals on groceries just got a little easier - thanks to the website, www.ajaxo.com

The website acts like a search engine for the best food prices. Just enter your shopping list and zip code, and the website comes up with a list of grocery stores selling those items, along with their prices. The site even lets you know if an item is on sale at a particular store or if there are any coupons available.
